11/24/64

2 copies of CD 1349 (except what was sent earlier) enclosed - one for Pena. Very interesting indeed. Could you ask for the photo from the 12/22/60 N.O. papers, mentioned on p. 5? At least the caption, to see who else is pictured. This may not mean it wasn't done, but I don't recall such treatment for other witnesses (except Howland). Liebeler may have asked for this memo. A check of the name file for Pena may be worthwhile.
